MILLWORK CATALOGUE

MAKERS OF THE Original Patent Dowelled DOORS

SASH, BLINDS,
FINE INTERIOR FINISH,
STORE AND OFFICE
FIXTURES,
BANK COUNTERS.
DEALERS IN LUMBER,
ETC.

MILWAUKEE, WISCONSIN.

1904

IN getting together and arranging matter for this catalogue, we have endeavored to keep in mind the fact that while a catalogue should be up-to-date, it should also be concise and not contain too much useless reading matter or complicated combinations of instructions as to how to arrive at the price that will be charged for goods. We believe the trade will appreciate the fact that this catalogue is up-to-date and easy of understanding.

We have been manufacturing mill work of all kinds for a period of about forty years, at practically the same location. Our plant is fully equipped with up-to-date machinery, and we are in a position to furnish anything in the woodwork line promptly. We carry perhaps a larger assortment of sizes than most concerns doing business, and are therefore enabled to ship on receipt of orders what other concerns would be obliged to make. REMEMBER, when you send your orders to us, you send them direct to "the" factory, where they can and do receive the promptest kind of attention, and where such articles that are not carried in stock are immediately put into work and made without any delay.

Respectfully soliciting your orders, we are,

Very truly yours,

THE ROCKWELL MFG. CO.

CAUTION.

WHEN ORDERING, please specify carefully what is wanted, using numbers as given in this catalogue, wherever possible.

Any article ordered by number, we take it for granted, refers to this catalogue, unless the order specifies to the contrary.

Unless otherwise instructed, we ship all stock goods as soon as order is received; odd work as soon thereafter as possible.

In ordering segment or circle head windows, cut up or cottage doors and windows, always order by numbers as shown in this book, and add such other information as you may consider necessary to insure your getting what you want.

IMPORTANT.

The term "stock quantities," wherever used in this list, means five or more Doors, and ten or more Windows, Sash or Blinds, of one size, kind and quality.

Irregular and intermediate sizes, in stock quantities, same list as next larger listed size, both open and glazed. For less than stock quantities on sizes not listed, an extra ten per cent. will be charged.

Where no provision is made for price on quantities less than ten, use stock quantity price and add ten per cent. to the amount thus created.

WE MAKE OUR

SASH, DOORS AND

BLINDS

According to

THE OFFICIAL GRADES

As Adopted by

THE WHOLESALE SASH, DOOR AND

BLIND MANUFACTURERS'

ASSOCIATION

of the Northwest.

HILL'S PATENT SLIDING WINDOW BLINDS.

Fig. 110.

ADVANTAGES CLAIMED FOR THE HILL SLIDING BLINDS.

They require no hinges. All trimmings are furnished with Blinds.

Do not interfere with curtains or window ornaments.

The light can be admitted from any part of the window.

They do not rattle or get out of order.

They are easily and rapidly operated, and quickly removed to clean.

It is not necessary to have window frames made especially for these Blinds, as they can be attached to any window.

While it costs on an average about \$1.00 to \$1.50 per window to hang the old-fashioned folding blinds, besides costing from \$1.00 to \$2.00 for hardware, these Blinds can be put into place by any mechanic for 25 cents or less, per window, and cost nothing for hardware.

The Making of

DOORS

Is Our Specialty

OUR ORIGINAL PATENTED DOWELED DOORS

Are the BEST on the MARKET

The Claims We Make For Them Are Approved by
Thousands of Dealers Everywhere

YOU MAKE NO MISTAKE BUYING THEM

For Sections Showing Construction and Dowels

See Following Pages

OUR PATENTED DOORS.

Fig. 1.

This Door is framed together with our kiln-dried, patented hardwood dowels, well and thoroughly glued. The manner of placing the dowels into the stiles and rails, and the peculiar form of the dowel, which is **PATENTED**, practically unites the various parts as solidly as if they were all one piece of wood.

OUR PATENTED DOORS.

Fig. 3 is a section on line A, B, Fig. 1. It is about one-third full size, and represents the dowel solidly imbedded in the stile and rail, as it appears in a door 1 $\frac{3}{8}$ inches thick.

The position of the dowels is shown by the dotted lines in Figs. 1 and 2. They are made of kiln-dried hardwood, are very long and of unusual size.

The manner of making the joint is also patented.

Fig. 3.

READ THESE ADVANTAGES.

1. Special machinery being used in framing them, every part of these Doors is always the same, and they cannot help being square and perfect.

2. *There are no tenons* in the way of putting on the hinges or mortise locks; and having none, the insertion of mortise locks does not weaken the Door, as is the case with ordinary doors.

3. *A saving of from ten cents to twenty-five cents per door*, according to size, is effected in the fitting and hanging, as against other doors; besides, the work is more easily done.

4. They are *stronger* in every respect than are the old style doors, and there is less liability of the joints opening.

In the making of DOWEL JOINT DOORS *we are the Pioneers*, and we have the satisfaction of knowing that the Doors we make are the *Best Doors Ever Made*.

SECTIONS OF DOOR STICKING.

Our standard sticking for Pine Doors is O. G. and unless otherwise ordered all orders are entered accordingly.

DESIGNS OF REGULAR RAISED AND FLUSH MOULDING FOR DOORS.

This style of Raised Moulding is used by us where Doors are Flush Moulded one side and Raised Moulded one side.

This is our regular Stock Pattern of Raised Moulding.

This is our regular Stock Pattern of Flush Moulding.

SUGGESTION FOR LIBRARY FINISH.

Fig. 195.

SUGGESTION FOR LIBRARY FINISH.

Fig. 196

SUGGESTION FOR STORE FRONT.

Fig. 197.

Particularly adapted for narrow buildings, gives largest possible space for show window and display.

Write us for price, giving height of ceiling, width of front, and any other information you may deem necessary.

SUGGESTION FOR STORE FRONT.

Fig. 198.

We can furnish you with everything needed for Store Fronts, including Glass, Iron Corner Posts, Floor Plates, etc. Write for price, giving size of Front to be filled.

SUGGESTION FOR STORE FRONT.

Fig. 199.

The Store Fronts shown on this and the two preceding pages are simply suggestions, and, of course, do not cover our entire line; there is no limit to what we can make of this nature, and if our customers will suggest what they want we will be pleased to submit special drawings, and, if desired, quotations.

SUGGESTION FOR STAIRS.

Fig. 200.

This and the several other cuts of Stairs shown in this catalogue are simply a few suggestions of the possibilities in stair building. We invite correspondence from parties wishing anything in this line.

SUGGESTION FOR STAIRS.

Fig. 201.

Our many years of experience in making and putting up Stair work, Panelled Wainscoting, Interior Finish, etc., has given us a fund of information on this subject which we should be glad to have prospective buyers take advantage of by corresponding with us when in the market.

SUGGESTION FOR STAIRS AND HALLWAY.

Fig. 202.

SUGGESTION FOR STAIRS AND HALLWAY.

SUGGESTION FOR DINING ROOM FINISH.

Fig. 203.

WHEN ORDERING STAIRS,

Please give height of story from floor to floor, width of second story joists, width and run of stairs, diameter of cylinder and say which way they turn on the landing, also give full sized section of base used in the hall, and refer to one of the diagrams on this page, or if none of these are suitable, send a sketch showing shape desired.

IN ORDERING HAND RAILING,

If for a straight of stairs, please give rise and tread of steps as sawed out on the string board, the number of risers, diameter of cylinder, also say whether the rail should turn to the right or left at the landing, and give length of straight rail needed on landing or at head of stairs, and if possible refer to one of the diagrams on following page.

Fig. 313.

THE BEST

IS NONE TOO GOOD.

Our STAVED COLUMNS are made of thoroughly dry lumber, put together by experienced mechanics. As you will see from the section shown above, the construction allows for the greatest possible amount of gluing surface. Only the best glue obtainable is used, and plenty of it. There are none better.

SUGGESTION FOR FASTENING COMPOSITION CAPS ON STAVED COLUMNS.

A—Shows column. B—Shows turned plate. C—Shows plug.

Fasten plate B to plug C; then nail plate B to end of shaft.

Allow plug to extend up through cap about one-quarter inch so that weight will rest on plug instead of on composition cap.

THERE ARE MANY MAKES OF STAVED COLUMNS.

**SOME BAD, SOME GOOD,
SOME INDIFFERENT.**

**PEOPLE WHO INVEST IN SUCH GOODS WANT
ONLY THE BEST, AND AS A RULE,
ARE WILLING TO PAY FOR IT.**

**WE OFFER YOU A
SUPERIOR ARTICLE AT COMPETITIVE PRICES.**

LIST PRICE ON STAVED COLUMNS.

This cut shows a few of the uses to which Composition Ornaments can be put.

COMPOSITION GABLE ORNAMENTS.

Fig. 320.

Fig. 321.

Fig. 322.

They harden with age and will last a lifetime.

See cut of house, page 188, showing the use these ornaments may be put to.

They are made with back, all of composition material, the size given is the size of the figure, not including the back, which can be increased in size, leaving a wider margin around the figure, thus making it possible to use the ornaments for any ordinary opening.

When ordering always give the size of the opening to be filled.

See page 193 for Prices.

DIMENSION SHINGLES.

We are prepared to furnish Ornamental Shingles, cut to any shape desired, and can offer inducements in prices. Write for quotations.

SHINGLES REQUIRED IN A ROOF.

To the square foot it takes 9 if exposed 4 inches, 8 if exposed $4\frac{1}{2}$ inches, and $7\frac{1}{8}$ if exposed 5 inches to the weather.

Find the number of shingles required to cover a roof 38 feet long and the rafters on each side 14 feet. Shingles exposed $4\frac{1}{2}$ inches.

Answer: $28 \times 38 = 1064$ (sq. ft.) $\times = 8512$ shingles.

**WHEN YOU BUY
WOLVERINE READY ROOFING
YOU ARE**

Making a profitable purchase, from whichever view you take, that of a Dealer buying to sell, or that of a consumer buying for his own use.

YOU GET FULL VALUE.

We consider this Roofing without question the superior of any similar article on the market.

**IT IS
MORE DURABLE THAN
METAL OR SHINGLES.**

Buildings covered with it are rated by Insurance Companies same as if covered with metal.

It can be easily and rapidly laid by anyone.

Put up in rolls of 108 square feet, with necessary cement and nails.

Price per roll \$1.85.

**WE ARE JOBBERS OF
RED ROSIN SIZED SHEATHING PAPER,**

A well known and necessary article, of which we handle a superior grade, put up specially for us in rolls of 500 square feet in four different weights.

PRICE PER ROLL.

No. 1, about 20 lbs., per roll.....	\$0.45
No. 2, about 30 lbs., per roll.....	.55
No. 3, about 35 lbs., per roll.....	.65
No. 4, about 40 lbs., per roll.....	.80

Special price in quantities of 25 rolls or more.

HARDWOOD FLOORING

is being used more extensively than ever before, owing to the fact that people are becoming more familiar with its great superiority over the soft wood floors that were commonly used heretofore.

IT IS ECONOMY

when building or repairing, to put in a floor of this kind, it not only looks a good deal better, but outlasts any soft wood floor several times over.

WE MAKE THE BEST

article of this kind on the market, having made it a personal matter for years, to have it always up to grade, and perfect as regards workmanship.

WE MAKE IT

in any wood, in any thickness from $\frac{3}{8}$ to $\frac{7}{8}$ inch, in width from $\frac{7}{8}$ to $2\frac{1}{4}$ inch face, all properly kiln dried, matched, end matched and polished, making it "perfection," and respectfully solicit your orders.
